# Mid January Blues

For all those who bravely embarked on Dry January, these are the darkest of times - two weeks without a beer and still two weeks to go !

However, there plenty of alcohol-free beers available this month and many top breweries have made a special effort to help relieve the beer cravings of those taking part in sobriety month.

(Editors note to self: Don't ever do this again!)

Cheers.

# Brewer's Corner

The latest news and views articles collated from the world of beer.

## Revised Opening Hours

Let's start this week with a thoughtful piece from Tandleman's Beer Blog about the fact that some pubs, based upon demand, are going back to separate lunchtime and evening sessions, rather than opening all day.

## Hoppípolla

5.4% Pale Ale

By DEYA Brewing Co.

---

A collaboration brew with Rivington Brewing Co.

A hefty dose of Galaxy and dry-hopped post-fermentation with Azacca and Citra resulting in a straight out the bag tropical hop aroma of passionfruit, pineapple and black grape. The malt bill is kept fairly simple to build the foam and add some light cereal flavour. The hop flavour continues, becoming more red berry-like with a flourish of piney bitterness at the finish.

# Taproom Review

TWICB CO-FOUNDER

## The Haunt Taproom (Phantom Brewing)

Units 2-3 Meadow Rd, Reading RG1 8LB

Phantom Brewing is just a 5 minute stroll from Reading railway station.

When they opened their doors in late 2019, they occupied a single large modern industrial unit, opposite a derelict printworks. As is the modern way, on day one, Phantom opened with a beautifully fitted-out Taproom known as The Haunt, even before they had released their first beer. The first few months were brilliant, and The Haunt was jumping.

It wasn't long before the UK was plunged into a COVID nightmare, but rather than feel sorry for their fledgling business, the Phantom owners Dom and Dane instead opened negotiations with their landlord to expand into the large empty unit next door.

# Taproom Review

Fast forward four years and Phantom has become one of the most respected names in UK Craft Beer, with two separate taprooms in adjacent industrial units, one serving a great combination of "mainstream" Craft Beers, and the other serving more specialist, typically high-abv offerings. Meanwhile, the derelict printworks has been turned into a really nice modern development of apartments and houses, the residents of which are lucky enough to live right opposite a Brewery.

It is hard to visualise the amount of space that Phantom has without actually visiting! The Haunt has table seating for at least 100 guests indoors, and next door in the Neon Bar, there is spacious seating for a further 100. Neon can be configured with a music stage, and is also used for large-scale TV events, such as football, Reading Festival etc. Neon is also available for private hire, allowing regular customers to still drink in The Haunt. The amazing Team at Phantom are proud of their hospitality, and they offer table service on all but the very busiest of event night.

Phantom have recently taken their food offering to the next level by partnering with 7-Bone, who operate their Reading branch out of a dark-kitchen just up the street. You can now get the full 7-Bone menu, including literally everything reworked as vegan options and if you prefer, delivered direct to your table at The Haunt.

Opening Hours are currently FRI: 15:00 - 22:30, SAT: 13:00 - 22:30, SUN: 13:00 - 18:00  
Units 2-3, Meadow Road, Reading, Berks, RG1 8LB

# Beer Name of the Week

Brewers are always coming up with great names for their latest brews, so we thought it's about time we noticed some of them.

## De-Bleaker

6.5% New England IPA

by **Verdant Brewing Co.**

Let this hugely hopped IPA help make the world a little less bleak. Beer goggles made from the lupulin glands of the finest Mosaic and Nelson Sauvin hops bring forth mesmerizing waves of mango, grape, gooseberry and deeper dirtier flavour notes we as yet cannot attribute appropriate adjectives to. It's a delight!

# Nethergate Brewery Embarks on a Bold Journey with AiPA: Uniting Traditional Brewing with Ai Innovation

In the quaint heart of Suffolk, something remarkable is brewing at Nethergate Brewery. It's a story that began with playful curiosity and has culminated in a ground-breaking creation: AiPA (Artificially Intelligent Pale Ale). We're thrilled to announce that AiPA, with a blend of traditional craft and modern AI wizardry, is not just one of the first AI generated beers in the UK but perhaps is the start of a pioneering venture in the global beer industry.

## The Enchanting Tale of AiPA's Birth

As a small, adventurous team, we've been keeping tabs on AI's evolution and pondering its positive potential in our craft. Like many, we harboured reservations, but instead of shying away, we dove headfirst into exploring how AI could spice up our beer game, delighting our customers, members, and visitors. What started as a bit of fun and discovery around the office, led to conversations about the advancements in AI and, eventually, led to an audacious idea: Could we blend the age-old art of brewing with the cutting-edge capabilities of Artificial Intelligence? This question, initially a playful musing among the team, soon took root in our collective imagination. We were determined to explore this uncharted territory, to see if AI could indeed play a role in crafting a unique beer.

## The AI-Brewing Alliance

Enter our Head Brewer, Ian Carson, a man deeply rooted in traditional brewing methods and initially wary of this technological intrusion into his craft. However, Ian's hesitation turned to intrigue when he witnessed the capabilities of AI first-hand. Routinely urged by our office team to collaborate with Artificial Intelligence on a unique beer recipe, Ian's interest in the project surged as soon as he spotted his handsome mug transformed into a veritable hunk on the pump clip (courtesy, of course, of an online image generator). This moment marked a turning point for Ian; his scepticism gave way to curiosity, and he agreed to embark on this unconventional brewing journey. Suddenly, he was raising a glass to newfound AI-assisted artistry!

Thus began a series of lively discussions and brainstorming sessions between our brewing team and the AI. We delved into the essence of what makes a beer truly exceptional, exploring various hops and ingredients. While the AI provided fascinating insights and suggestions, it was clear that it lacked the tactile wisdom and intuitive touch of our experienced brewers. This realisation shaped our approach: AiPA would not be the product of AI alone, but a harmonious collaboration, a melding of human expertise and digital intelligence.

## Crafting the Recipe

As the recipe took shape, there was a palpable excitement in the air. The team, including Ian, found themselves increasingly engrossed in this unique collaboration. Together, we experimented with various hop combinations and malt profiles, guided by both AI's data-driven suggestions and our brewers' seasoned instincts. The result was a recipe that promised a beer both familiar in its craftsmanship and revolutionary in its conception.

Ian Carson, our Head Brewer, explained "As someone deeply rooted in traditional brewing, the thought of bringing AI into the mix felt like uncharted territory. However, this pale ale we've created is nothing short of spectacular and a beer that I'm super proud of and very excited about. This project has certainly opened my eyes to the benefits of embracing innovation"

This enchanting origin story of AiPA is a testament to our spirit of innovation and adventure. It's a journey that started with a simple question and blossomed into a pioneering venture in the world of brewing.

## From Concept to Creation

As the recipe for AiPA took shape, AI's role expanded beyond brewing. It assisted in designing our pump clip, website banners, a social media video, and even contributed to this press release. Every step of AiPA's journey has been touched by AI, making it a true testament to the synergy of human creativity and artificial intelligence.

## A Taste of Innovation: AiPA 3.9% ABV

AiPA is a sessionable pale ale that's as delightful to the palate as it is to the mind. It radiates a golden hue, with a bouquet of citrus and floral notes, thanks to a blend of Cascade, Amarillo, Centennial, and Citra hops. The malt brings a subtle sweetness and caramel accent, culminating in a crisp, full-flavoured experience. AiPA is not just a beer; it's a celebration of innovation in every sip.

## Where to Find AiPA

This trailblazing beer, a fusion of brewing heritage and AI ingenuity, will debut in our taprooms and select local pubs Suffolk, Essex, Cambridgeshire, Norfolk, Hertfordshire and Bedfordshire) from 8th January 2024. For trade customers, AiPA will be available in 9G casks or 4.5G pins for a limited time. We also offer pre-orders for those eager to stock this unique brew. Additionally, AiPA will be accessible for home enjoyment through our fresh beer boxes, available online or in our shops for delivery locally or collection.
